

Cardinal Construction is providing construction management services in a phased approach at the Ruth House, a program of Lutheran Social Services in Brockton, Massachusetts,

While the facility is occupied, Cardinal has renovated an existing toilet and shower room for full compliance with the Americans with Disabilities Act (ADA).

As part of the current phase, all windows are being replaced, and interior trim work and exterior panning work is being completed along with the window installation.

The next phase of the project will include slate roof repairs and the last phase will include additional interior and exterior renovations such as aesthetic upgrades, site improvements, lighting and heating, ventilating, and air conditioning system improvements.
